

The venue

Cassero is a small medieval village in Le Marche region, Italy, laying on the first row of hills overlooking the Adriatic sea, surrounded by a rolling landscape of plantations and seascapes, with a traditionally generous way of life. The care of the families hosting the young artists and the daily gastronomic experiences make it a real treat for the talents attending the Residart Festival.

Terms

Master Class duration: Nine full days of lessons and concerts.

Maximum number of participants:10.

Master Class fee: € 600 per person.

The fee covers all lessons and coaching. Accommodations, meals, facilities for lessons and concerts, local transportation are all offered by the organiser. Flight tickets, airport-city centre transportation in your place of origin and privately rented car(s) in Italy are not included.

World leading Maestros and highly talented young musicians

This unique Master Class is rooted in the welcoming environment of Cassero Castle and surrounding villages thanks to a number of exceptional Maestros who have contributed to the creation of a special relationship with the young rising stars. As a result, new personal and professional achievements are made possible for all the musicians involved.

This VIII edition takes place thanks to all those musical talents who have participated in the past Festivals and motivated the organisers to persevere and provide young artists with an intensive and instructive experience.

Why is this Master Class so special?

Artists will receive up to 18 hours of specialized coaching from world-renowned teacher HENK GUITTART, who has -in his more than 4 decades of teaching- coached countless young ensembles on their way to a successful professional career.

The artists are hosted by families belonging to RESIDART Association (Residencies for Artists). Side events such as convivial dinners and visits will contribute to expose participating artists to a cultural experience.

For ten days the hills around Cassero Castle live around your music making, and new fruitful connections will be born out of the growing relationship between the visiting artists, the local hosts and the audience.

Residart Festival

The Master Class is one facet of the Festival, which also features 8 different concerts in different venues.

This provides for full immersion exercise as well as exposure to a wide audience of music lovers, connoisseurs and public authorities, both Italian and international. The artists perform as Residart Chamber Musicians in order to highlight their advanced level and professionalism.
